	41			(14)
TOTAL REQUIREMENTS	68			

Associates of Arts in Business

About the Program

The **Associates of Arts in Business** is both an academic and business-oriented program that allows the students to acquire all necessary skills, concepts, and experiences to continue their studies for a Bachelor of Arts in a Business degree.

The program educates the student in depth towards the field of business, including computerized accounting. In addition, a solid foundation is offered in the related fields such as Business Management and Information Communication Technology. As a result of this, a Business graduate can also relate, anticipate and communicate in the business environment.

In order to meet the laid down objectives USM uses the internationally renowned BTEC curriculum for Business. Upon completion of this program students will earn the internationally recognized British Higher National Certificate in Business next to their USM Associate of Arts in Business.

The Higher National Certificate/Diploma together with the Associates of Arts in Business provides a solid grounding in Business which students can build on should they decide to continue their studies beyond this stage. It allows students to specialize by committing to specific career paths and progression routes to a degree-level study.

The Business Program is now accredited by BTEC and it is an EQF level 5 program.

For More Information

Persons interested in applying to the program should consult with the Admissions Department at the University of St. Martin.
